

Levi Hull – District 2

My name is Levi Hull. I am a third-generation cow-calf producer located west of Willowbrook SK. Our family runs a commercial cow-calf operation in which we also background our own calves.

The cattle industry has always been a passion of mine so I found it necessary to put my name forth some five years ago. I have been the representative for district number five since 2014. It has been a great opportunity and I have learned a tremendous amount. During that time I have been a Member at Large on the Executive Committee, I am the past chair and continue to be a member of the communication committee as well as the research committee.

I have a lot more to learn therefore I am putting my name forward again to continue representing my district. I look forward to your support and continuing all the great things that are happening in the Saskatchewan Beef Industry.
